ALL INDUCTION COMPATIBLE PRESSURE COOKERS ON THIS COLOUR BACKGROUND

THE WIDEST RANGE OF COOKWARE FOR ALL YOUR COOKING NEEDS

The designers of Hawkins and Futura Cookware have spared no effort to provide you with the best possible cooking experience.

Our Cookware is presented in seven types: **Futura Hard Anodised, Futura Nonstick, Futura Cast Iron, Hawkins Tri-Ply Stainless Steel, Hawkins Sandwich Bottom Stainless Steel, Hawkins Pressure Die-Cast Aluminium and Hawkins Ceramic Nonstick Cookware.**

Each pot or pan is made from heavy gauge, commercially pure material for even heat dispersion and steady heat retention.

The cooking surface of the stainless steel pans is made of food-grade stainless steel. Futura Cast Iron is made of iron. The other pans are given a technologically advanced surface coating, to give you a superb cooking surface.

Sturdy, comfortable, stay-cool handles form part of all our Cookware using the finest materials in rosewood, plastic, stainless steel or silicone handles (except for a few cookware).

The handles stay fixed permanently. Where required, the cookware comes with custom-designed lids of stainless steel, glass or hard anodised aluminium, either included in the product or as an option at extra cost.

Each Cookware item is tried out thoroughly in the Hawkins Test Kitchen before the specifications are approved and manufactured under strict quality control. Each piece is individually packed in a strong, attractive carton designed for protection in transit and sales appeal. An Instruction Manual with tested recipes comes free in each carton (except for a few cookware such as the Tadka Pans, Ezee-Pour Saucepans and TPans).

Futura Cookware and Hawkins Cookware are designed, quality controlled and manufactured or marketed by Hawkins Cookers Limited.

Please see the details of models, sizes and prices of these different types of cookware in the pages that follow.

FUTURA CAST IRON

Cast iron is made from iron heated to over 1200 degrees centigrade, with many wonderful properties for cooking

- Retains heat well, easy to cook in. Certain foods will brown better, cook faster and crisper, and cook more evenly inside and out
- No coating – Naturally nonstick, healthy, tasty, crispy food
- Rough and tough – Can use high heat, metal ladles
- Pre-seasoned with vegetable oil – Will not rust with regular care
- The more you use it, the better it gets! The cast iron pan gets seasoned with more use, becoming smoother and tougher
- Versatile – It may be used on gas cooktops, in the oven, on a grill or a *chulha*. Do not use on induction unless specifically recommended by the manufacturer of the induction cooktop

FUTURA® HARD ANODISED

1. Hygienic and Healthy non-toxic, non-staining, non-reactive with foods
2. Not spoilt by high heat; metal ladles can be used
3. Cooks some foods faster, crisper
4. Extra thick, black metal spreads heat evenly, is more durable
5. Stays looking new for years
6. Guaranteed for 5 years

FUTURA® NONSTICK

1. High quality German PFOA-Free Nonstick
2. Nonstick locked firmly into the tough Hard Anodised surface with a unique patented process
3. Extra thick, black metal spreads heat evenly, is more durable
4. Lasts longer than ordinary nonstick
5. Guaranteed for 2 years

MRP = MAXIMUM RETAIL PRICE PER UNIT INCLUSIVE OF ALL TAXES IN INDIAN RUPEES

FUTURA TAVA (GRIDDLES)

HARD ANODISED TAVA

HARD ANODISED ROTI TAVA

HARD ANODISED FLAT TAVA

- Up to 6.35 mm extra thick, black metal heats fast and evenly, no hot spots
- Stay-cool handles in metal or plastic stay firmly fixed with strong rivets
- Rivets 'splayed' to maximise cooking surface

- Designed for making perfect *Rotis* – on gas or induction
- 4.88 mm extra thick metal heats evenly, stays flat even after heavy use, to maximise contact on induction cooktops

- Unique design – for the perfect *Uttapams* and Pancakes
- Useful when spreading liquid batter – helps retain the shape more evenly
- The rim contains batter and cooking oil better, with less spillage and greater safety

NONSTICK TAVA

NONSTICK DOSA TAVA

NONSTICK FLAT TAVA

- The Futura Nonstick Tava can cook all the foods that can be cooked in Hard Anodised Tava with less or no oil or butter, if required
- The extra-thick 4.06 mm / 4.88 mm black metal protects the nonstick better, and spreads heat evenly, creating an even cooking surface with no hotspots
- The German PFOA free Nonstick is perfect for cutlets, eggs, French toasts as well

INDUCTION COMPATIBLE AVAILABLE IN 28 & 30 cm DIA.

- Just the right shape & curvature – the batter does not spill over the edge, nor does it pool in the centre
- Rivets fixed on flange to maximise area for making the largest *Dosa* or several *Uttapam* or cutlets at one time

- Extra-thick 3.25 mm / 4.06 mm curved Body is perfect for easy stirring of difficult dishes. Well-suited for stir-frying, sautéing and simmering too
- Toughened heat-proof glass lid locks in the steam and flavours. See the food cook without lifting the lid
- Elegant natural rosewood handles
- Perfect for curries, *pilau*, vegetables with gravy, pasta, *paneer*, soups and stews

BIG BOY BIRYANI HANDI

- Unique curved body – stir and handle large loads easily
- 4.06 mm extra-thick strong body heats fast and evenly
- Tough, riveted, stay-cool handles – easy to manage heavy loads
- Unique lid holds water, tenderises food inside
- Ideal for large families, parties, hotels, *dhabas*, clubs, caterers, and canteens

CAPACITY (L), DIAMETER (cm) & THICKNESS (mm)	PRODUCT CODE	MRP WITH LID (₹)	CASE PACK
12 L, 34 cm, 4.06 mm	NBH 12	4500	2

HANDI SAUCEPANS

- Steam rises from the food and condenses on the underside of specially designed hard anodised lid, which is cooler as it holds water in its moat. Water droplets fall directly on to the food inside – making delicious, tender and moist food

THE MAKING OF HAWKINS PRESSURE COOKERS

Hawkins Cookers Limited has been in business since 1959. Today, it has two offices, three factories and about 600 persons working. It is the leader in the pressure cooker market in India and has exported its products since 1974 to various countries in each of the six continents of the world.

Worldwide, Hawkins has sold over 110 million units of pressure cookers and cookware by producing products of good design, good quality and considerable consumer benefit. Hawkins pressure cookers are listed by Underwriters Laboratories, USA, an independent worldwide institution testing products for public safety. CE certification also available.

Each pressure cooker made by Hawkins features an inside-fitting lid. This design is inherently safer than conventional pressure cookers. To open any Hawkins cooker, you have to first lower the lid slightly into the body of the cooker; and that cannot be done until the steam pressure inside the cooker falls to a safe level. Thus Hawkins pressure cookers are pressure-locked for safety - like a jetliner door!

The Hawkins Company is well known for not compromising on quality and for continual product innovation. The most thorough research and development, the most careful selection of materials, the best manufacturing practices and the strictest quality control - all go into making pressure cookers which are trusted by the millions of families using them.

Each cooker is tested to be leak-proof. Along with a superior pressure regulating system, this ensures that Hawkins cooks quickest. Each pressure cooker comes individually packed in an attractive full-colour carton. Cookbooks/Instruction Manuals come free with each pressure cooker.

Additionally, the individual cartons are packed in master cartons/case packs from 2 to 12 units (depending upon the size of the product). This makes your receiving of shipments more convenient and secure.

All Hawkins pressure cookers are guaranteed for five years.

CODE: CL50

HAWKINS CLASSIC PRESSURE COOKER

The Classic is Hawkins' largest-selling, most popular range of pressure cookers – perhaps because of its attractive combination of features, benefits and price. Each Hawkins Classic features an inside-fitting lid. This design is inherently safer than conventional cookers. Thus Hawkins Classic pressure cookers are pressure-locked for safety – like a jetliner door!

This range was the first to be introduced by Hawkins and has been kept fresh and current by numerous innovations and improvements over the years. The latest improvement is a superior pressure regulating system that controls pressure to a narrower, more efficient range, reduces sprouting of frothy foods (such as *dal*) and is easier to insert and remove.

The safety valve is located under the lid handle bar so that when it operates the steam is safely deflected downwards. The gasket has minimum exposure to steam inside the cooker, does not rub every time the product is opened and closed – so lasts longer.

Stay-cool handles. Fixed sturdy pivot does not put pressure on the plastic handles as it is a part of the metal handle itself. Thus handles last longer. Recommended for use on gas stoves.

HAWKINS INSTAA PRESSURE COOKER

The Hawkins Instaa Pressure Cooker is hard anodised inside and out. The beautiful, durable black finish given by 60 microns thick hard anodised has several benefits. It is non-toxic, non staining and non-reactive with most foods, making it one of the most hygienic pressure cookers available. It makes the pressure cooker absorb heat faster, making it more energy-efficient. It does not pit or tarnish and stays looking new for years. It is not nonstick. Suitable for both gas & induction. The 4.06 mm extra thick induction base stays flat always and so that heats evenly, food does not burn and stick. The smooth hard anodised finish of the inside cooking surface is ideal for light frying of masalas prior to pressure cooking. And cleaning is so easy too!

Abridged Recipe for Vegetable *Biryani* (Rice Layered with Spicy Vegetables)

Pressure
Cooking
Time:
3 minutes

For 5 Litre Model: Serves 7

1. Grind ginger, garlic, chillies into a paste with water.
2. Boil 5 cups water in cooker. Add salt, spices and rice. Boil 5 minutes without vent weight. Remove cooker from heat. Transfer rice to a colander and drain.
3. Heat one-fourth cup ghee in cooker 2 minutes. Add onions, ginger paste, cut potatoes and cauliflower. Fry 3 minutes. Add cut beans, carrots and peas. Fry 2 minutes. Add red chilli, cumin and *garam masala* powders, tomatoes, coriander and mint leaves, lemon juice and salt. Fry 3 minutes. Add *paneer*. Mix gently. Add 1 cup water. Stir.
4. Remove cooker from heat. Place rice on vegetables. Dribble saffron-milk over rice. Add hot ghee and cumin seeds.
5. Close cooker. Bring to pressure and cook 3 minutes. Remove cooker from heat. Allow to cool naturally. Release pressure. Open cooker.
6. Garnish with almonds and mint leaves. Serve hot with butter or curd.

HAWKINS CERAMIC NONSTICK PRESSURE COOKER

Introducing the Revolutionary New Hawkins Ceramic Nonstick Pressure Cooker series: healthy but tasty – the best of both worlds! The specially formulated ceramic nonstick cooking surface has many wonderful properties for cooking. The German high quality ceramic has excellent release properties and can use up to 36% less oil during cooking. Now cook and stir fry masalas in the base of the cooker with no sticking and burning. The durable nonstick is not spoiled by high heat, which allows you to cook crisper, tastier food quicker. The healthy nonstick is most hygienic – No PFAS, No PFOA, No PTFE, No Heavy Metals. The attractive ceramic spatter finish on the exterior surface is scratch and stain resistant and stays looking new for years. And clean-up is so easy too!

The extra-thick, induction-compatible bottom allows the pressure cooker to work well on gas, induction, electric, ceramic and halogen cooktops. The stainless steel lid maintains the highest levels of quality and hygiene. Recommended for hand washing only.

This revolutionary new nonstick is so durable, it is backed by an unmatched five-year guarantee, a first in India.

What is Hard Anodising?

Hard Anodising was first developed by Russian scientists to produce a metal surface tough enough for space travel. The same technology is now used to make the most advanced Pressure Cooker. Through a process of electrolysis at sub-zero temperature using a high intensity electric current, a 60 micron thick layer of aluminium oxide (Al_2O_3) is formed molecule by molecule as an integral part of pure, virgin aluminium. This process is called Hard Anodising. It produces a tough surface with wonderful properties for cooking.

- Thermal-efficient: heats fast and evenly
- Not spoilt by high heat
- 2.4 times harder than steel
- Non-toxic, non-staining, non-reactive with foods
- Will not pit, tarnish or corrode
- Stays looking new for years

Tri-Ply Stainless Steel

HAWKINS SS TRI-PLY PRESSURE COOKER

The 3mm extra-thick tri-ply stainless steel body has several benefits: It spreads heat evenly through the base and up the side walls of the pressure cooker, cooking the food quickly and evenly from all sides. Lightly fry or deep fry and mix masalas without any sticking or burning. Cook healthy and hygienic dishes using less oil by virtue of the special tri-ply protection given to the 18/8, food-grade, superior stainless steel cooking surface. The outer surface of AISI 430 magnetic stainless steel makes the pressure cooker work well on gas, induction, electric, ceramic or halogen cooktops. The strong, extra-thick body ensures that the base stays flat and always in contact with the cooking surface.

The wider mouth and sloping walls makes it easier to stir and easier to see the food while cooking. It is more convenient as well to insert and remove containers for indirect cooking inside the pressure cooker body.

FUTURA PRESSURE COOKER

A beautiful combination of form and function, Futura is the only pressure cooker in the world to have been displayed by The Museum of Modern Art, New York.

Futura cooks on average 46% faster than a microwave oven.

The beautiful, durable black finish given by 60 microns thick hard anodising has two benefits. It makes the pressure cooker absorb heat faster making it more energy-efficient. And the pressure cooker stays looking new for years.

The unique pressure regulating system gives you the convenience of finger-tip pressure release and prevents clogging of the steam vent. The double-thick base stays flat, heats evenly and is ideal for light frying before pressure cooking.

Suitable for gas, electric, ceramic and halogen. Induction Compatible models available in 2 Litre, 3 Litre, 4 Litre, 5 Litre and 6 Litre.

THE HAWKINS TEST KITCHEN

All Cookbooks and Instruction Manuals are written by the Hawkins Test Kitchen. The Test Kitchen writes instructions for the user, develops recipes and solves customer problems. Established in 1984, it has since then tested hundreds of

products before launch. If a prototype has some issues the Test Kitchen sends it back to the R&D Centre for improving the design. The Test Kitchen tests products from the consumer's point of view.

MISS MARY[®]

PRESSURE COOKER

5 LITRE
CODE: MM50

MISS MARY PRESSURE COOKER

Miss Mary is a well-made and reliable pressure cooker that will not leak. It will give trouble-free service and is totally safe. Miss Mary Pressure Cookers go through all the applicable rigorous checks and tests as are applied on other pressure cookers manufactured by Hawkins and are quality-certified by the Bureau of Indian Standards (popularly known as ISI). Recommended for use on gas stoves.

MISS MARY[®]

Handi

5 LITRE
CODE: MMH50

MISS MARY HANDI

Miss Mary Handi pressure cooker features a Curved Body for easy stirring, easy removal of food, better visibility of food. It is made of pure virgin, metal which is stronger and lasts longer. It has an improved Vent Weight (Whistle) which is more efficient, causes less dal sprouting, cooks faster and saves fuel. It also features an inside-fitting lid which will not open under pressure. A Shielded Safety Valve located under the lid handle bar, deflects steam and is more safe. It has sturdy and strong handles which are comfortable to hold. Each Miss Mary cooker is tested to be leak-proof.

Abridged Recipe for Masala Gobi (Spicy Cauliflower)

For 3 Litre Model : Serves 12

Pressure Cooking Time 2 minutes

6¾ cups / 1.6 litres	water
2 tbsp + ½ tsp / 32.5 ml	salt
2 medium heads (2½ lb / 1.2 kg)	cauliflower cut into 1¼-1½ inch / 3-4 cm flowerettes with ½ inch / 1 cm stalks; cut remaining tender stalks into ½ inch / 1 cm cubes (720 g)
1½ tbsp / 22.5 ml	poppy seeds
3 tbsp / 30 g	cashew nuts broken into pieces
1 x 1½ inch / 3.8 cm piece (½ oz / 15 g)	fresh ginger
9 small cloves	garlic
3	green chillies
¾ cup / 180 ml	vegetable oil
3 large (1 lb / 450 g)	onions grated
4 medium (13 oz / 375 g)	tomatoes blanched, skins removed and chopped
¾ tsp / 3.8 ml	turmeric
1½ tsp / 7.5 ml	coriander powder
¾ tsp / 3.8 ml	cumin powder
1½ tsp / 7.5 ml	red chilli powder
¾ cup / 180 ml	curd beaten
1½ tbsp / 22.5 ml	coriander leaves chopped

- In a bowl, add 5¾ cups/1.4 litres water with 1 tbsp /15 ml salt. Put cauliflower in bowl and keep about 30 minutes. Drain.
- Grind together poppy seeds and cashew nuts into a paste, gradually adding ¼ cup /60 ml water time to time.
- Separately grind together ginger, garlic and green chillies into a paste.
- Heat oil in cooker about 2 minutes. Add onions and fry till golden brown.
- Add ginger paste, tomatoes, turmeric, coriander, cumin and red chilli powders and remaining salt (1 tbsp +½ tsp /18 ml). Cook till tomatoes are pulpy, stirring occasionally.
- Add 1 tbsp/15 ml curd. Stir and fry until curd is well blended (about ½ minute). Add remaining curd in the same way, a tablespoon at a time, till all curd is used. Stir and fry till oil shows separately (about 3 minutes).
- Add cauliflower. Stir fry about 5 minutes. Add remaining water (¾ cup/180 ml). Mix.
- Close cooker. Bring to full pressure on high heat. Reduce heat and cook 2 minutes.
- Remove cooker from heat. Release pressure with slight lifting of vent weight.
- Open cooker. Add cashew nut paste. Return cooker to medium heat. Cook about 2 minutes, stirring gently. Serve hot, garnished with coriander leaves.

Hawkins® BIGBOY™

HAWKINS BIGBOY PRESSURE COOKER

The Bigboy range has been specially designed to cook large quantities of food quickly and economically. It is most useful in restaurants, hotels, canteens in factories, hospitals, schools and colleges. Also, canteens in many civil or military government establishments are using the Hawkins Bigboy.

The 18 Litre and 22 Litre Bigboy Pressure Cookers have a pair of sturdy lifting handles attached to the sides of the pressure cooker for convenience in handling the heavy weight carried by such pressure cookers. The plastic handles of all Bigboy Pressure Cookers are made from reinforced fibreglass for extra strength. Similarly, all other components of Bigboy Pressure Cookers are made for heavy duty. A chain is attached to the vent weight to prevent loss in busy kitchens.

Recommended for use on gas or kerosene stoves. They may also be used on coal burning or firewood stoves provided a suitable gap of at least 1 inch is kept between the fuel and the bottom of the cooker.

WITH SEPARATORS
CODE: CL51**

HAWKINS CLASSIC PRESSURE COOKER WITH SEPARATORS

Make a quick-n-easy, delicious, healthful meal using the Hawkins Separator Set, that can cook 2 or 3 dishes at the same time in your Hawkins pressure cooker. Cook healthier, low-oil foods in pure steam. Save more time, more fuel. Plus, clean-up is much easier! Separator Sets have 2 or 3 food containers and a stand for convenient insertion and removal of the stack of containers. The versatile containers can also be used for steaming foods that are to be kept out of water, and for reheating foods conveniently.

Separator Sets are made of pure, virgin aluminium, and are presently offered packed inside 3 Hawkins Classic Pressure Cooker models: 5 Litre (with 2 containers) and 6.5 Litre & 10 Litre pressure cookers (with 3 containers). All 3 sizes are also offered without Separator Sets (see page 4).

5 Reasons to buy the Hawkins Repair Kit

Repair your pressure cooker yourself with just a screwdriver. Other parts and tools are in this pack.

Uninterrupted Meals. Your pressure cooker can be repaired and back to work in 5 minutes.

Guarantee of genuine parts. No risk of spurious parts when you buy parts later.

No charge for repair and avoid untrained or unscrupulous mechanics.

Take the kit abroad or to a town where there is no Hawkins Authorised Service Centre.

INSIDE: Repair instructions with illustrations to help you repair your cooker yourself.

THE HAWKINS REPAIR KIT

Now you can do some repairs of your pressure cooker yourself and get back to cooking in just five minutes! All you need is a screwdriver – the other parts and tools are all there in the Hawkins Repair Kit. No more risk of using spurious parts, incurring unnecessary repair costs or dealing with untrained, unscrupulous mechanics. This kit is ideally suited to be used abroad, or in towns where there is no Hawkins Authorised Service Centre nearby.

Pressure Die-Cast

Die casting is a metal casting process, whereby metal is heated to a very high temperature and poured under high pressure into a mould cavity. The molten metal takes the shape of the mould and the result is a complex, intricately designed pot or pan which adds the metal where it is needed the most, building strength and functionality. Once the molten metal hardens, the mould is opened and the die cast pan is removed. It is then finished by a PFOA free long lasting nonstick coating on the inside and ceramic coating on the outside. The final result is a finely engineered piece of cookware with wonderful properties for cooking. Guaranteed for 2 years.

ceramic nonstick

Hawkins Ceramic Nonstick has excellent release properties, which means that it uses less oil when cooking. Additionally, the nonstick coating is not spoiled by high heat, which allows you to cook crisper and tastier food. The German ceramic used in the nonstick coating is of high quality and lasts longer, making it a durable option for your kitchen. The Hawkins Ceramic Nonstick does not contain PFAS or heavy metals, making it a healthier and safer option for cooking. The attractive ceramic coating on the outside is scratch and stain resistant, which means that it will stay looking new for years to come. Guaranteed for 5 years.

Tri-Ply Stainless Steel

Hawkins Tri-Ply Stainless Steel is extremely durable, well balanced, does not bulge or warp. The extra thick core heats evenly, has no hotspots and stays flat, so food does not burn and stick as it may in ordinary stainless steel. The external base of AISI 430 grade magnetic stainless steel makes the product work on gas and induction. The 18/8 grade stainless steel cooking surface is extremely hygienic, durable, does not react with most foods and does not pit or corrode. Guaranteed for 5 years. Nonstick Paratha Tava guaranteed for 2 years.

PARATHA TAVA
26 cm DIA 3.5 mm THICK
CODE: NSPT 26

TRI-PLY STAINLESS STEEL COOKWARE TAVA

The 3.5 mm extra thick tava has a unique shape with a flat base and gentle sloping sides has just the right curvature for optimal cooking results - oil does not pool, nor spill over the sides. Tava handle options available in stay-cool wire handle or premium rose wood handle. 26cm Paratha Tava with Nonstick reinforced on Stainless Steel is also available, giving a high-quality nonstick surface on food grade stainless steel, metal friendly, protected from undue wear & tear.

DEEP-FRY PAN

The rounded curved sides and extra height are most suitable for deep-frying *Puri*, *Samosa*, *Wada* and stir-frying *Stews*, *Curries* and vegetables. The rim of the pan has an all around ezee-pour no-drip flange - specially designed to pour or slide foods without spilling - suitable for left or right handed use.

FRYING PAN

The well curved sides of the frying Pan helps easy stirring and mixing of foods without spilling. Suitable for *Eggs*, *Tikki*, *Poora*, *Pancakes*, *Fish-fry* and stir-frying.

HANDI

The unique curved body of the Cook-n-Serve Handi is most suitable for stir-frying, sautéing and foods that require considerable stirring, and makes light work of difficult dishes too! The glass lid locks in the steam, heat and flavours.

TADKA PAN

Tadka Pan (Spice Heating Pan) is designed for preparing tadka, quick heating of flavourful spices and is also useful for melting butter or reheating small quantities of food. The strong and sturdy stainless steel handles are stay-cool and designed for safety to ensure 100% attention while using.

Tri-ply Advanced technology

- 1. Cooking Surface**
Made from 18/8 food-grade (AISI 304) stainless steel of superior quality, the cooking surface is extremely hygienic, most durable, does not react with most foods and does not pit or corrode.
- 2. Core**
The heavy gauge aluminium core spreads heat well for even cooking with no hotspots, and retains heat for quick cooking. It is sandwiched between two layers of stainless steel and does not come in contact with food on the cooking surface.
- 3. Base**
The base (outer surface) is made of AISI 430 grade magnetic stainless steel. Hence this cookware can be used on all domestic gas, induction, electric, ceramic and halogen cooktops.

TRI-PLY STAINLESS STEEL METRO PATILA

The Hawkins Tri-Ply Stainless Steel Metro Patila's distinct, stackable, space saver design helps free up space in modern kitchens. Its unique 2-in-1 Elliptical Rim is easier to hold, stack and remove.

The broad side easily holds detachable silicone stay-cool grips and allows snug-fit stacking. The narrow side is for Ezee-Pour and Ezee-grip with tongs.

The Hawkins Tri-Ply Stainless Steel Metro Patila can be used to cook and serve a wide variety of dishes like vegetables, *dals*, soups, sprouts, curries and desserts. It works on gas and in fact cooking and serving in the same Patila makes perfect sense as the food remains warm for a longer time and there's less to clean up. Suitable for use on all domestic gas, electric, halogen, ceramic and induction cooktops.

HAWKINS STAINLESS STEEL SANDWICH BOTTOM

Stainless Steel Sandwich bottom cookware combines the strength and purity of superior stainless steel with an extra thick heat-diffusing base, so that food does not burn and stick as it tends to in ordinary stainless steel vessels. The body is made from 18/8 food grade (AISI 304) stainless steel which is extremely hygienic, durable, does not react with most foods and does not pit or corrode, upto 6.6 mm extra thick sandwich bottom stays flat and heats evenly, with no hotspots. The external base is AISI 430 magnetic stainless steel, which makes it induction compatible.

The Cook n Serve Frying Pan is ideal for Pasta, Stir-fried Vegetables, seafood, meats, Rice, *Koftas*, *Kormas* and desserts such as *Malpua*, *Jalebi* and *Halwa*. The elegant shape, stay cool handles and toughened heat proof glass lid make it an ideal pot to cook and serve in — one pot from kitchen to table.

The Cook n Serve Casserole is ideal for soups, stews, curries, gravies, Rice, *Pilau*, *Firni*, *Kheer*.

The T-Pan is ideal for making tea and coffee - upto 8 cups at a time. It is also ideal for making soup, boiling milk and water, cooking instant noodles and re-heating food.

Suitable for use on all domestic gas, electric, halogen, ceramic and induction cooktops.

HAWKINS CERAMIC NONSTICK COOKWARE

Introducing the Revolutionary New Hawkins Ceramic Nonstick Cookware series: healthy but tasty – the best of both worlds! The specially formulated ceramic nonstick cooking surface has many wonderful properties for cooking. The German high quality ceramic has excellent release properties and can use up to 36% less oil during cooking. The durable nonstick is not spoiled by high heat, which allows you to cook crisper, tastier food quicker. Now cook and stir-fry masalas on higher heat more quickly, with no sticking and burning. The healthy nonstick is most hygienic – no PFAS, no PFOA, no PTFE, no heavy metals. The attractive ceramic spatter finish on the exterior surface is scratch and stain resistant and stays looking new for years. And clean-up is so easy too! The stay-cool, stylish silicone handles are hygienic, durable and easy to clean. These extra-thick, induction-compatible pots and pans work well on gas, induction, electric, ceramic and halogen cooktops. Recommended for hand wash only.

This revolutionary new nonstick is so durable, it is backed by an unmatched five-year guarantee, a first in India.

The 4.88 mm extra-thick Tava spreads heat fast and evenly without hotspots. Cook on higher heat for crisper *Uttapam*, *Bhakri*, *Lachha Paratha* or Stuffed *Paratha*. Make delicious *Besan Chilla* and Omelettes as well. Offered in various sizes from 24 to 28 cm.

The 3.25 mm extra-thick Kadhai have a deep shape with high walls that minimises the effects of spattering of hot oil when deep-frying, and minimises spillage even during vigorous stirring. The toughened, heat-resistant glass lid locks in the heat and flavours and shows the progress of the food during cooking without lifting the lid. Suitable for *Curries*, *Vegetables Stir-Fried* or with Gravy, *Noodles*, *Chilli Chicken* etc. Available in several sizes from 1.75 litre to 3.5 litre.

The 3.25 mm extra-thick Frying Pan has rounded sides and higher, straighter walls, which minimise spattering of hot oil and spillage while stirring. The toughened, heat-resistant glass lid locks in the heat and flavours and shows the progress of the food during cooking without lifting the lid. Ideal for *Upma*, *Egg Bhurji*, *Pan-fried Chicken*, *Fried Eggs* etc.

HAWKINS PRESSURE DIE-CAST COOKWARE

Die casting is a metal casting process whereby metal is heated to a very high temperature and poured under high pressure into a mould cavity. The molten metal takes the shape of the mould and hardens; once opened, it is finished with durable ceramic outside and a suitable surface of ceramic or other nonstick inside. The result is a precisely designed pot or pan with sometimes intricate shape which adds metal where it is needed, which gives you a pan that feels lighter in the hand without sacrificing strength or functionality. The Hawkins Pressure Die-Cast range offers you a variety of cookware that are engineered to fulfil specific cooking needs using these principles. Recommended for hand wash only. Guaranteed for two years.

The Hawkins Appe Pan (Paniyarakkal) has twelve precisely shaped cups for making a variety of tasty treats such as *Appe*, *Momos*, *Muffins*, *Aloo Bonda* and *Spicy Manchurian*. The domed glass lid allows the food to expand and rise freely. The wooden Appe remover is designed to lift, turn and remove food easily.

The Grill Pan has ridges that raise the food above the cooking surface. This prevents build-up of steam as the food sears and allows the excess oil to drain away, making for healthier, low-oil, flavourful food.

The grill marks add to the appeal. Ideal for *Paneer Tikka*, *Chicken Tikka*, *Tandoori Aloo* and Grilled Vegetables, Chicken and Fish.

The Dutch Oven has a unique oval shape with a 7.5 mm extra-thick base and high walls which concentrate the heat and cook the food evenly from all sides. Ideal for layered foods such as *Biryani*, and for gravies, curries and soups. The versatile all metal body can be put in the oven as well for baked dishes such as *Shepherd's Pie*, *Lasagna*, *Bread Pudding*, *Vegetable Au Gratin* and *Apple Pie*.

The Multi Snack Pan is a unique quick snack maker with four shallow cavities suitable for cooking multiple different snacks at one time – mix and match mini *Uttapam*, *Tikki*, *Vegetable Rava Patties*, *Besan Chilla* and many more.

The Shallow Kadhai has a broad base and wide, sloping sides designed for shallow frying and healthy, low-oil cooking. The 6.5 mm extra-thick base spreads heat evenly. Ideal for shallow frying *Tikki* or pieces of Fish side by side. Works on gas, induction, electric, ceramic and halogen cooktops.

The Frying Pan has a 6 mm extra-thick base with deep walls and rounded sides for frying, sautéing and simmering in the same pan. Spouts on both sides allow for left or right handed pour. Ideal for *Omelettes*, *Sooji Halwa* and *Upma*. Works on gas, induction, electric, ceramic and halogen cooktops.

HAWKINS MINI CASSEROLE

A most versatile companion for chefs on the go or in busy kitchens, the Hawkins mini casserole is one dish that can do it all – cook, bake, serve, store and reheat. The compact casserole is ideal for the young professional managing his or her diet, or for a meal for a young couple or one or two persons. The new revolutionary ceramic based nonstick coating is not spoilt by high heat and has excellent release properties, which allows for healthy, tasty, crispy food. No sticking, no burning, no staining, no PFOA, no PFAS, no heavy metals. And clean-up is so easy!

The outside of the mini casserole has a scratch and stain resistant ceramic coating which, properly used, will not pit or tarnish and stays looking new for years. The attractive colours brighten up your kitchen and make ideal serving dishes as well. The compact, coloured shapes makes attractive serving bowls for cocktail snacks and nibbles too. Ideal for cooking on gas, the mini casserole series is offered in a variety of shapes including the oval, round and square series. Each series is offered in a variety of colours, and make compact, useful and economical gifts for all occasions.

PIZZA Maker & Cake Baker

Pressure Die-Cast with Glass Lid | 30 cm

New

PIZZA MAKER & CAKE BAKER
30cm DIA.
CODE: PIZZA

PIZZA MAKER & CAKE BAKER

Introducing India's first Pizza Maker and Cake Baker, a versatile, two-in-one cooking vessel that gives you delicious, fresh, home-made pizzas and cakes from hand-picked ingredients. Make pizzas to order with your own selection of toppings in as little as 15 minutes on heat. Cakes are ready in just 30 minutes of cooking.

The durable ceramic interior and exterior coating on the body withstands high heat well and is easy to clean. The glass lid traps the heat inside, creating a heated chamber like an oven, and heating the cake or pizza evenly from all sides.

The specially designed steps on the inner walls of the pizza maker and cake baker vessel body are custom-designed through precision die-casting to give just the right height and placement for the pizza pan or the cake mold for the best cooking results.

The pizza pan is designed to make pizzas of about 8 inches/21 cm diameter. The 2.6 mm thick pan with PFOA-free nonstick heats quickly and evenly for a well baked pizza crust. The strong riveted stainless steel handles allow easy handling. The hard anodized cake tin bakes a half kg delicious cake of 7 inch/18 cm diameter. The toughened, heat-proof glass lid allows you to see the progress of the food being cooked without lifting the lid. The large, flat head of the custom made spatula makes removal of pizzas easy.

Recommended for hand wash only. Guaranteed for two years.

Now get home-cooked, five star snacks for your loved ones, with fresh, hand-picked ingredients and your chosen flavours and recipes – at a fraction of the cost and time!

THE ULTIMATE COOKING MACHINE

The designers of Hawkins and Futura Cookware have spared no effort to provide you with the best possible cooking experience.

Each Futura pot or pan is made from heavy gauge, commercially pure aluminium 3.25 mm to 6.35 mm thick for even heat dispersion and steady heat retention. Each pot or pan is given a technologically advanced surface coating to give you a superb cooking surface.

Sturdy, comfortable, stay-cool handles form part of all our Cookware using the finest materials in rosewood, plastic or stainless steel. The handles stay fixed permanently. Where required, the cookware comes with custom-designed lids either included in the product or as an option at extra cost. The lids are made of Hard Anodised aluminium, stainless steel or glass.

We have a wide range of pots and pans to meet each of your different cooking needs. Each Cookware item is designed for

the purpose for which it is made and tried out thoroughly in the Hawkins Test Kitchen before the designs and specifications are approved. Each piece is manufactured carefully and subjected to strict quality control. Each piece is individually packed in a strong, attractive carton designed for protection in transit and sales appeal. An Instruction Manual with tested recipes comes free in each cookware carton (except Tadka Pans, *EZEE-POUR*® Saucepans and TPan).

Our Cookware is presented in seven types of material-Hard Anodised, Nonstick, Tri-Ply Stainless Steel, Stainless Steel Sandwich Bottom, Pressure Die-Cast Aluminium, Cast Iron & Ceramic Nonstick. You can read which type of cookware is better suited to which type of cooking.

Futura and Hawkins Cookware are designed, quality controlled and marketed by Hawkins Cookers Limited, manufacturers of the world-famous Hawkins and Futura Pressure Cookers.

FUTURA®

HARD ANODISED

For traditional cooking with normal quantities of oil or butter, Futura Hard Anodised Cookware presents the ideal cooking surface. Foods that need to be crisp or browned will cook fast and well. Cooking that uses sufficient water or other cooking liquids will also do well in Futura Hard Anodised Cookware.

The Futura Hard Anodised surface is non-toxic, non-staining and non-reactive with foods. It is thermal-efficient, heats fast and evenly and is not spoiled by high heat. It is tough and durable, will not pit, tarnish or corrode and will stay looking

new for years. Metal ladles can be used.

Hard Anodising was first developed by Russian scientists to produce a metal surface tough enough for space travel. The same technology is now used by Futura to make its Hard Anodised Cookware. Through a process of electrolysis at sub-zero temperature using a high intensity electric current, a 60 micron thick layer of aluminium oxide (Al_2O_3) is formed molecule by molecule as an integral part of the metal. This process produces a surface harder than steel with wonderful properties for cooking.

Under the terms of a written guarantee included in each carton, Futura Hard Anodised Cookware is guaranteed for five years.

FUTURA®

NONSTICK

If you want to cook with less or no oil or butter, Futura Nonstick Cookware is the cookware to use. Foods which tend to stick to the pan while cooking are best cooked in Futura Nonstick. Also, clean-up is so easy!

Futura Nonstick Cookware will give you great-tasting, healthful food, cooked easily and economically. If

you are new to cooking, you will find the Futura Instruction Manuals and recipes invaluable. Even if you are an expert cook, you will learn new ways to get the best out of your Futura Nonstick Cookware.

The cooking surface of Futura Nonstick Cookware is made PFOA-free with a unique patented process by which high quality nonstick coating (made in Germany) is locked firmly into the tough Hard Anodised surface underneath. This means that Futura Nonstick, properly used, will last longer than ordinary nonstick.

The outer sides of Futura Nonstick Cookware are Hard Anodised to give you a surface that is thermal-efficient, will not tarnish, pit or corrode and will stay looking new for years.

Due care should be taken not to overheat the pan or scratch the nonstick surface. A wooden spatula is provided with each piece of Futura Nonstick Cookware. Under the terms of a written guarantee included in each carton, Futura Nonstick Cookware is guaranteed for two years.

To make cast iron, iron alloy is heated to over 1200°C, the molten metal is then poured into molds and cooled. The molds are broken and the cast iron emerges and then goes through various processes to prepare it for your kitchen. Cast iron has been used in kitchens in India and other parts of Asia for over two thousand years, and has spread to other parts of the world because of its wonderful cooking properties and health benefits.

Cast iron retains heat better than most of other cookware. It is slow to heat up, but once it is hot, it stays hot for long, and retains heat well. Foods that need higher temperatures will brown better, cook faster and crisper, and cook more evenly inside and out.

Cast iron gets better with use. As you cook in it, it builds a naturally nonstick surface over time, called 'seasoning',

which is a smooth and tough cooking surface. So, the more you use it, the better it gets!

Iron is widely regarded as beneficial when used for cooking. This is probably based on its acceptance in kitchens across the world for thousands of years. During cooking, some small amounts of iron may get mixed into or absorbed by the food, which is generally considered as beneficial for health.

Cast iron cookware, properly made, is virtually indestructible. It has the strength of iron forged at very high temperature. It withstands high heat, metal ladles and rough handling well.

Cast iron cookware is versatile. It may be used on gas cooktops, in the oven, on a grill or a *chulha*. Futura Cast Iron Cookware is guaranteed for 5 years.

FUTURA CAST IRON

The Futura Cast Iron is made from a high-quality grade of cast iron with superior purity, increased hardness, corrosion resistance and reduced porosity. It retains heat well. Certain foods will brown better, cook faster and cook more evenly inside and out.

Pre-seasoned with vegetable oil, the product will get better with use, making it naturally nonstick over time. It is virtually indestructible and can easily withstand high heat and metal ladles.

TAVA

The Cast Iron Tava has gentle curves ensure that oil does not pool at the centre or spill over from the sides. The rimless edge makes it easier to scoop, slide or lift foods. This makes it perfect not only for *Roti, Paratha, Pancakes and Uttapam*, but also for making *Tikki, Cutlets, Rolls, Fish-fry, Fried Eggs, Kebabs* and *Tava Vegetables*.

KADHAI

The Cast Iron Kadhai has deep edges to go for having gravy type foods. This makes it perfect for cooking *Aloo Methi, anda curry, Bhindi do pyaza & Kadai paneer*

The two sturdy handles are designed for better balance and greater safety. It may be used on gas cooktops, in the oven, on a grill or a *chulha*. Do not use on induction unless specifically recommended by the cooktop manufacturer.

TAVA (GRIDDLES)

Tava are widely used to cook *Roti* (flat breads), *Phulka* (puffed unleavened bread) and *Paratha* (layered unleavened breads) - all staple foods in India. Tava can also well cook Cutlets, Eggs, Pancakes, French Toasts, Griddle Cakes and the like.

Futura Hard Anodised Tava are particularly preferred for their heavy gauge and well-balanced pans that make cooking easy and the results are delicious. The handles, whether in stainless steel or plastic, are stay-cool and comfortable.

Nonstick Tava can cook all the foods that can be cooked in Hard Anodised Tava with less or no oil or butter, if required. Less expert cooks will find it easy to produce great tasting results on Futura Nonstick Tava, particularly with the help of clear step-by-step instructions in the Futura Manual included with each product.

FLAT TAVA (GRIDDLES)

Futura Flat Tava can cook all the foods that can be cooked in Futura Tava. In addition, the flat cooking surface is particularly useful in making foods using liquid batter that require careful spreading, and helps retain the shape more evenly. The rim contains batter and cooking oil better with less spillage and greater safety. Flat Tava are hence particularly preferred for cooking popular South Indian snacks such as Dosa and Uttapam, or for making Pancakes and Crepes.

Flat Tava is suitable for gas, kerosene, electric, ceramic and halogen cooktops. Induction Compatible Flat Tava are also available in 26 cm and 30 cm diameter.

NONSTICK DOSA TAVA

The Dosa Tava is designed with just the right curvature and thickness to give you the best cooking results when making *Dosa* (Rice and Gram Pancakes). The flange, which firmly attaches the handle with strong stainless steel rivets, is uniquely designed to not interfere with the cooking surface and to hence maximise the cooking area, allowing you to make a very large *Dosa*, or several *Uttapam* or *Cutlets* at one time. The 4.88 mm extra thick heavy gauge metal ensures fast and even heat conduction and retains heat well. The Dosa Tava Instruction Manual has tested recipes for the Dosa Tava, including varieties of *Dosa*, *Uttapam*, *Cutlets* and *Rolls*. The Dosa Tava is suitable for domestic gas and radiant electric cooktops. Induction compatible Dosa Tava is also available in 28 cm & 30 cm diameter.

Abridged Recipe for Masala Dosa

1. In a bowl, cover rice, parboiled rice and *urad dal* with water at least 1 inch above ingredients. Soak 4 hours. Drain. Grind rice-*dal* mixture into a paste, gradually adding 2 cups water. Mix salt. Cover and keep 12 hours.
2. Mix boiled potatoes, salt and turmeric. Heat oil in a pan 2 minutes. Add mustard seeds, *urad dal*, curry leaves, chopped chillies, grated ginger and sliced onions. Stir-fry 2 minutes. Cover and cook on low heat 10 minutes. Increase heat to medium-high. Add potato mixture. Mix. Remove from heat.
3. Mix fermented *dosa* batter and half-cup water. Heat Futura Dosa Tava on medium heat 5 minutes. Pour half-cup batter on Tava. With the bottom of a *katori*, gently spread batter evenly. Increase heat to medium-high. Cook first *dosa* 3 minutes, adding half-teaspoon oil around edges of *dosa* and half-teaspoon oil all over *dosa*. Turn over. Cook 1 minute, pressing gently with spatula. Turn over. Place half-cup filling on *dosa* and spread. Fold *dosa* over filling. Remove. Keep heat at medium-high. Cook remaining *masala dosa* in the same way, reducing cooking time before turning over *dosa* from 3 minutes to 2 minutes.
4. Serve hot, accompanied with Coconut *Chutney*.

HARD ANODISED FRYING PANS

The extra thickness of the Futura Hard Anodised Frying Pans helps you cook without burning with minimal heat control. These frying pans conduct heat quickly and evenly, so high heat is rarely necessary. The sturdy handles, whether plastic or stainless steel, are stay-cool and comfortable.

The 22 cm Frying Pan is also offered with a tough, heat-resistant glass lid with a strong stainless steel rim. The 22 cm Frying Pan with Rounded Sides has extra height to prevent spilling of food while stirring. The 30 cm Frying Pan with stainless steel handle can be put in the oven or under a broiler. The Tadka Pan (Spice Heating Pan) is designed for preparing *tadka*, quick heating of flavourful spices and is also useful for melting butter or reheating small quantities of food.

Futura Hard Anodised Frying Pans can be used on domestic gas, kerosene, electric, ceramic and halogen stoves. Induction Compatible Frying Pans are also available in 22 cm and 25 cm diameter.

NONSTICK FRYING PANS

Futura Nonstick Frying Pans are ideal for cooking foods such as Fried Eggs, Omelettes, Pancakes and *Uttapam* with minimal use of oil or butter. Apart from the Frying Pan with rounded sides and extra height, this range also has the All-Purpose Pans and Curry Pans (Sauté Pans) which are deeper and can be used for sautéing, stir-frying and deep-frying in addition to their use as a frying pan. Both All-Purpose Pans have snug-fit dome-shaped lids which are suitable for simmering; the All-Purpose Pan with two short handles makes an elegant serving bowl as well. Three Frying Pan models (22 cm, 26 cm & 28 cm) and the two Curry Pans (Sauté Pans) are also available with a tough, heat-resistant glass lid with a strong stainless steel rim.

Futura Nonstick Frying Pans can be used on domestic gas, electric, ceramic and halogen stoves. Induction Compatible Frying Pans are also available in 22 cm, 26 cm and 30 cm diameter.

HARD ANODISED DEEP-FRY PANS

All Futura Hard Anodised Deep-Fry Pans are distinguished by elegant, comfortable rosewood handles fixed on sturdy stainless steel brackets which are permanently riveted to the pans. The handles are carefully designed to provide greater comfort and safety, particularly when handling heavy loads or hot oil. All pans have curved sides suitable for deep-frying and stir-frying.

The pans are offered either with a Round Bottom for greater convenience during stir-frying and ideal for use on domestic gas stoves or radiant electric cooktops, or with a Flat Bottom for greater stability on gas and for use on cooktops with a flat surface such as electric, ceramic and halogen. Induction Compatible models are also available in 2.5 Litre and 3.75 Litre capacity.

FUTURA[®] DEEP-FRY PAN

NONSTICK

DEEP-FRY PAN (STIR-FRY WOK)
3 LITRE, 3.25 mm THICK
INDUCTION COMPATIBLE
CODE: INW 30/INW 30S

NONSTICK DEEP-FRY PANS

Futura Nonstick Deep-Fry Pans are ideal for sautéing and stir-frying foods using minimal quantities of oil. They can also be used for deep-frying and for cooking gravies, curries and sauces. The Pans are offered with elegant, comfortable rosewood or plastic handles fixed on sturdy stainless steel brackets which are permanently riveted to the pans. There are certain models offered with a tough, heat-resistant glass lid with a strong stainless steel rim.

The pans are available either with a round bottom for greater convenience during stir-frying and ideal for use on domestic gas stoves or radiant electric cooktops, or with a flat bottom for greater stability on gas and for use on cooktops with a flat surface such as electric, ceramic and halogen. The 2.5 Litre Deep-Fry Pan, 3 Litre Stir-Fry Wok, all Deep Kadhai and 2.5 Litre Shallow Kadhai are suitable for use on induction cooktops as well.

**HARD ANODISED
EZEE-POUR® SAUCEPAN
1.5 LITRE, 3.25 mm THICK
CODE: AS 15/AS 15S**

SAUCEPANS

Futura Saucepans are offered in a wide variety of models to suit your cooking needs. The Hard Anodised Saucepan range has four technologically advanced **EZEE-POUR®** Saucepans with a specially designed spout for easy pouring with almost no drip, and which are particularly preferred for

making soups, tea or other beverages, or boiling milk. With the exception of the 1 Litre Nonstick model, the other, larger capacity Nonstick Saucepans have flared rims. All Saucepans have strong, stay-cool plastic handles fixed on sturdy stainless steel brackets which are permanently riveted to the pans. All Saucepans are offered with an optional stainless steel lid. The 3 Litre Nonstick model is also offered with a tough, heat-resistant Glass Lid with a strong stainless steel rim.

The Futura Hard Anodised Handi (Saucepan) is a modern version of the traditional Indian cooking utensil used for flavourful, less-water cooking. Water poured into the specially-designed moat on the lid condenses the steam that rises from the food simmering in the Handi, which forms droplets on the underside – thus making delicious, tender and moist food. The Handi Instruction Manual includes recipes of such favourites as *Dum Aloo* (Potatoes in Thick Gravy), *Paneer Pasanda* (Cottage Cheese Simmered in Spices and Cream), *Handi Chicken* (Chicken Simmered in Gravy) and *Mutton Biryani* (Rice Layered with Spicy Mutton).

Futura Saucepans are suitable for domestic gas, electric, ceramic and halogen cooktops. The 1.5 Litre & 2 Litre Hard Anodised **EZEE-POUR®** models are suitable for use on induction cooktops as well.

COOK n SERVE STEWPOT

**NONSTICK COOK n SERVE STEWPOT
WITH GLASS LID
3 LITRE, 3.25 mm THICK
CODE: NST 30G**

COOK n SERVE STEWPOTS

The Futura Cook n Serve Stewpot is a modern version of the traditional Indian *patila* or *degchi* (a deep cooking vessel). In these Stewpots you can conveniently cook rice, *dal*, curries and many popular desserts such as *Firni*, *Sooji Halwa* and *Ras Malai*. The elegant Stewpots may be used for cooking as well as serving on the table. All Stewpots have two short handles and come with a stainless steel lid. A glass lid option is offered in three models – 3 Litre and 5 Litre Nonstick, and 5 Litre Hard Anodised.

Futura Stewpots are suitable for domestic gas, electric, ceramic and halogen cooktops. The 3 Litre Induction Compatible Nonstick model is suitable for use on induction cooktops as well.

COOK n SERVE BOWL

**NONSTICK COOK n SERVE BOWL
WITH GLASS LID
3 LITRE, 4.06 mm THICK
CODE: NCB 30G**

COOK n SERVE BOWLS & CASSEROLES

Futura Cook n Serve Bowls are ideal for cooking a wide range of Indian and Western dishes such as *Pulao*, *Biryani*, vegetables, *dals*, soups, stews, curries and desserts. The thick base and sides of these Cook n Serve Bowls spread heat evenly and retain warmth for a long time – making them excellent utensils for both cooking and serving. Cooking and serving in the same bowl makes good sense – the food stays hot longer and you have less to clean up and less for storage.

These bowls are designed for convenient cooking and elegance on the dining table. The Hard Anodised finish on these bowls will stay looking new for years. Available in a wide variety of sizes to suit your cooking needs – 12 models in Hard Anodised and Nonstick.

Futura Cook n Serve Bowls/Casserole are suitable for domestic gas, electric, ceramic and halogen cooktops. The 2 Litre, 3 Litre & 4 Litre Hard Anodised, 2 Litre & 5 Litre Nonstick models are suitable for use on induction cooktops as well.

FUTURA®

COOK n SERVE HANDI

**COOK n SERVE HANDI
WITH GLASS LID
4 LITRE, 3.25 mm THICK
CODE: ACH 40G**

COOK n SERVE HANDI

The Futura Hard Anodised Cook n Serve Handi comes with a unique curved body which is perfect for easy stirring of difficult dishes. It's well suited for sautéing, stir-frying and simmering too. Its Extra-thick Heavy Gauge body makes the Handi extremely well balanced and durable. What's more, its thick base and sides spreads heat evenly and retains it longer. It's one pot with two functions – One can cook with ease and serve in style.

Stay cool rosewood handles fixed on sturdy stainless steel brackets which are permanently riveted to the pan. The Handles are carefully designed to provide greater comfort and safety, particularly when handling heavy loads.

The toughened glass lid with stay cool rosewood knob locks in the steam, heat and flavours. It helps in seeing food as it's being cooked and adds to the elegance when food is served on the table.

The Futura Hard Anodised Handi is suited for foods like *Biryani, Pilau, Khichdi*. The Handi can be used for stir-frying vegetables and preparing deserts like *Halwa, Firni, Kheer* and so on. Suitable for use on all domestic gas, electric, halogen, and ceramic cooktops.

The 3 Litre, 4 Litre & 5 Litre Handi induction compatible models are also available.
