LARGE APPLIANCES

KENSTAR RANGE OF LARGE APPLIANCES

Over the last 3 decades, Kenstar has pioneered cutting-edge appliances that bring joy to every moment, every day across more than 30 countries worldwide. Our extensive range includes cooling appliances, heating appliances, small home appliances and fabric care. And now we are all set to ace the category of large home appliances:

Crystal Series Air Conditioners

Fully-Automatic Top Load Washing Machines

K-FORCE Semi-Automatic Washing Machines

Cosmic Series Direct Cool Refrigerators

■ Air Conditioners

Whatever the conditions outside, create a joyful environment within!

Kenstar is delighted to introduce the superior range of Crystal air conditioners. Created to give you and your family total comfort, even in the most demanding conditions. Its powerful Turbo Intellisense Cooling Technology brings together an array of advanced features to keep the summer heat where it belongs – outside! Its advanced filters keep PM 2.5 pollutants and dust particles outside, while also eradicating microbes and bacteria from the air.

So that you and your family can stay fresh and breathe easy, all summer long!

STRONG COOLING

TURBO intelliSense — COOLING —

Kenstar Crystal Series ACs bring together powerful features to provide exceptional cooling power. Summers are getting more extreme every season, but Turbo Intellisense delivers effortless comfort, even in the harshest conditions. Here's how:

**BLUE
SAPPHIRE**
ANTI-CORROSION
COATING

Lifetime free of rust and corrosion. Hassle free performance at peak capacity for years and years. Complete peace of mind!

**5IN1
INVERTER**
TECHNOLOGY

A versatile technology that adjusts the performance according to your requirement. Choose when you need maximum cooling, decide when you prefer more cost-efficient operation.

**100%
COPPER
CONDENSER**

Outstanding durability. Superior heat transfer. Low maintenance. Improved efficiency. Long lasting performance. Enjoy a world of benefits with Crystal Series all-copper range.

**4D
COOLING**

Smart design innovation that ensures every corner of your room receives abundant cool air. Stay comfortable wherever you choose to be.

APPLIANCES

■ Air Conditioners

FRESH LIVING

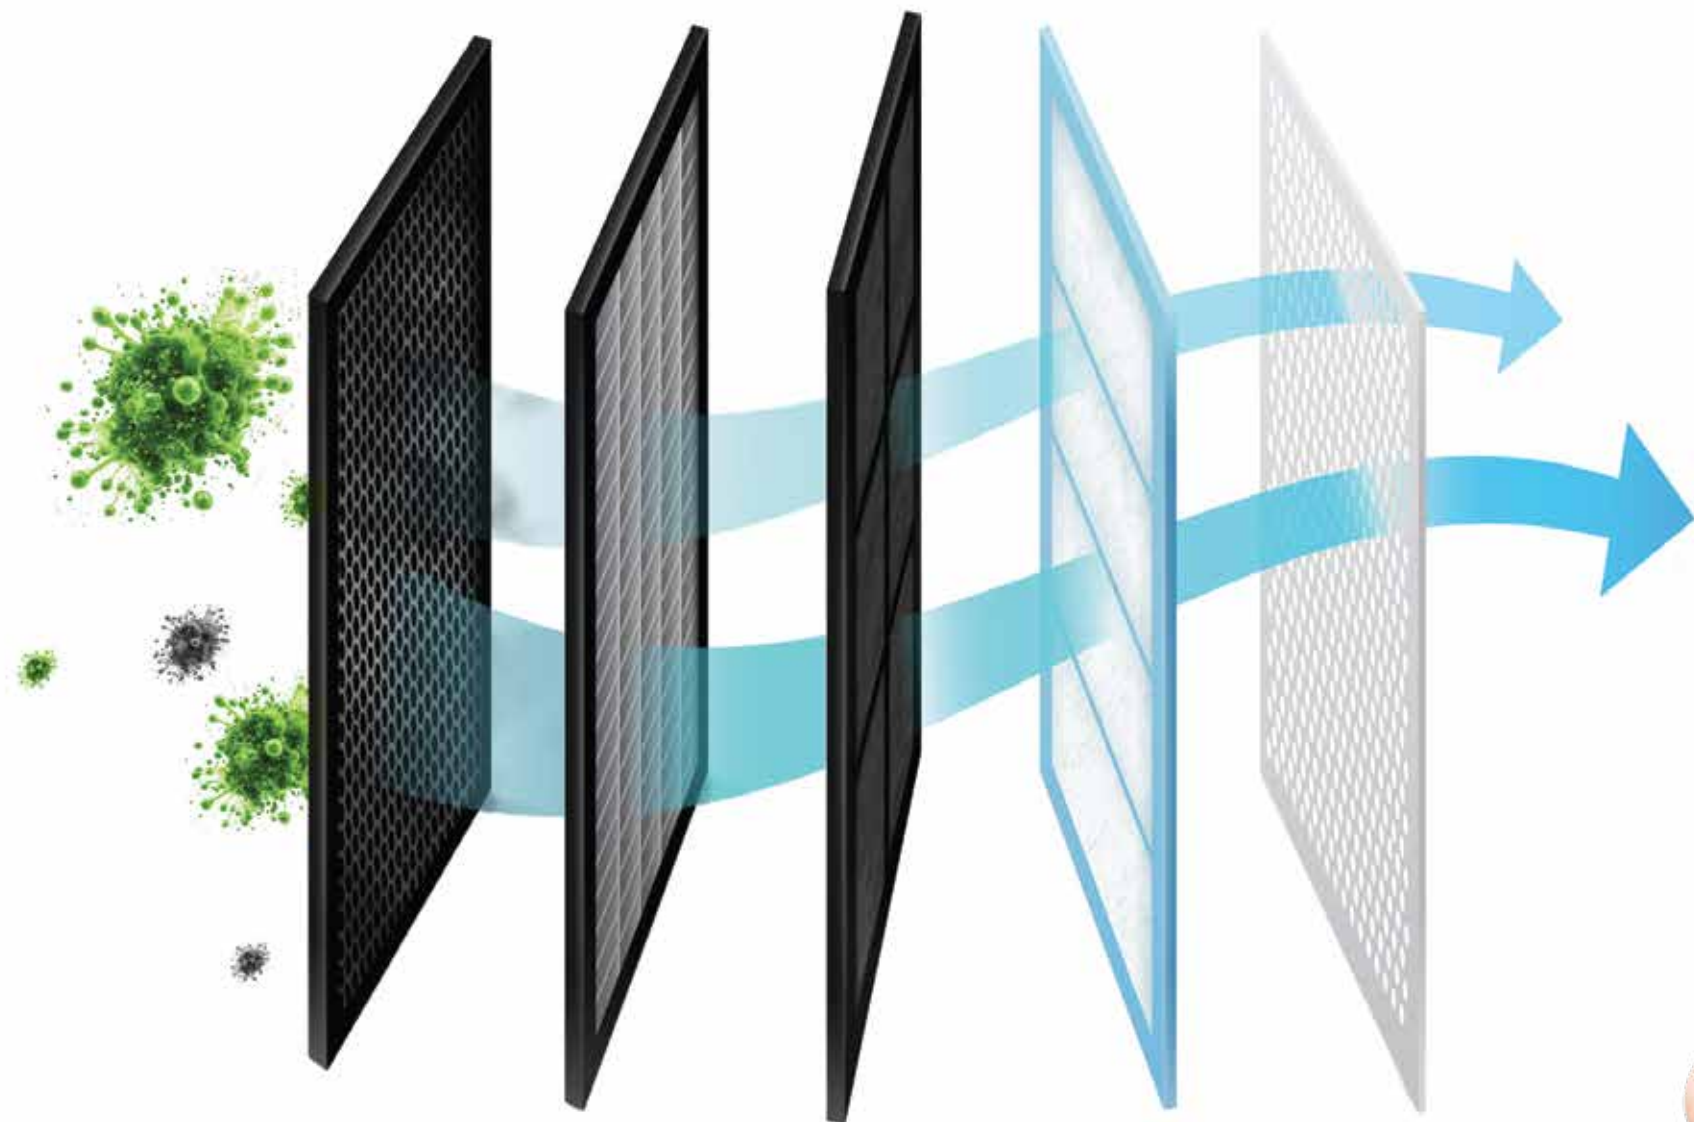

Pollution is a major health concern for all generations. PM 2.5 particles and microbes in the air can cause illness and create adverse health issues in the long term. Kenstar Crystal Series Air Conditioners come equipped with advanced features to ensure you always enjoy a breath of fresh air. See how:

Heavy duty, high performance built-in filters to capture dust particles in the air, ensuring clean air for you and your family. Everyday!

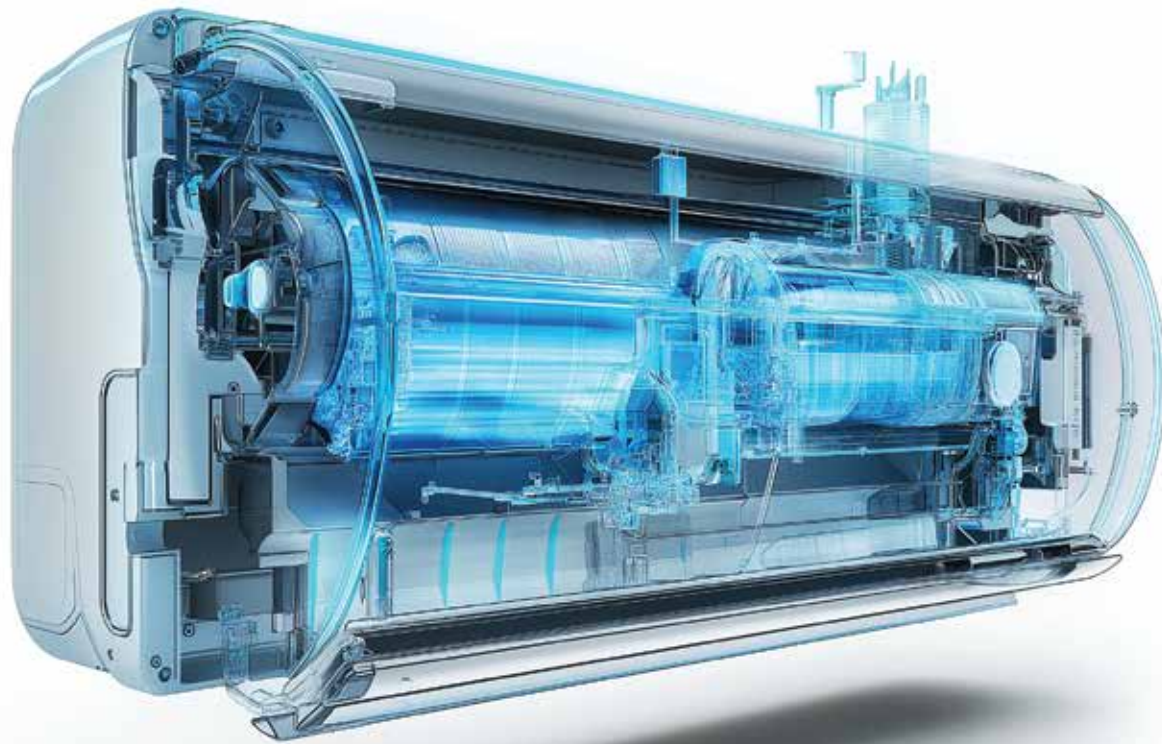

This advanced feature eradicates microbes, bacteria, fungi and captures PM 2.5 dust particles so the air you breathe is disease-free. Every breath you take strengthens your health.

■ Air Conditioners

SWITCH TO A SMARTER COOLING MODE

Kenstar Crystal Series air conditioners are loaded with advanced features that are ahead of the curve in cooling technology. Thoughtfully designed to give you practical benefits for years and years, so you can enjoy the comfort you desire.

BLDC TECHNOLOGY

Enjoy the highest energy efficiency, quieter operation and precise temperature control to give your family the ultimate comfort.

SMART CLEAN TECHNOLOGY

Uses an in-built blower for dust removal. The evaporator's ice build up is automatically cleaned, allowing the AC to be refreshed in just 10 minutes, with minimal effort.

SELF DIAGNOSIS

In the event of an error, your Crystal Series AC will automatically identify and display the cause of the problem.

ECO MODE

Automatically sets 24 degrees for optimal cooling. Reduced fan speed adds to your power savings.

NANO TECHNOLOGY

Advanced anti-rust protection for EVA coils ensures long life and unmatched reliability.

STABILIZER FREE OPERATION

Enhances safety, cost efficiency and durability by protecting against voltage fluctuations.

ADJUSTABLE MODE

Intelligently senses and adapts the cooling capacity to fit the room size and the number of occupants. Energy efficient cooling in all scenarios.

SEMI-AUTOMATIC WASHING MACHINE FEATURING

THE POWER OF 2

2 PULSATORS

Mini Pulsators generate a powerful & multidimensional waterflow. Gentle on fabrics, they use less water & energy making them over all more efficient.

Agitators, with their central spindle & fins extending outwards, dislodge dirt & stains with a relentless pull & push motion.

2 WATERFALLS

The efficiency and effectiveness of the washing process is vastly improved with 2 waterfalls. The first waterfall is used for pre-soaking & loosening dirt.

The second one aids in rinsing & removing detergent residues. Two waterfalls ensure a more thorough washing of your laundry.

2 CLEANERS

The washer, ensures water & detergent circulate evenly through your clothes, while the rotation & rubbing motion helps dislodge dirt & grime. The washer also aids in draining water during the rinse & spin cycles, ensuring your clothes are thoroughly cleaned & rinsed.

The Collar Scrubber, an asset to your machine, simulates the manual scrubbing action loosening stubborn dirt stains and debris from collars & sleeves.

COSMIC
SERIES

DESIGNED TO
NOURISH

Preserving joy - better and longer!

Kenstar's range of Direct Cool refrigerators is loaded with advanced technology to preserve the taste and nutrients of your favourite food.

You'll find the perfect size and stylish design to complement your home décor, ensuring freshness and joy for years to come!

Kenstar's advanced engineering brings together thoughtful features that keep your food fresh, and your family safe:

FreshShield

Odour Eliminator

ensures your food stays fresh and flavourful, while eliminating unwanted odour.

Anti-Bacterial Gasket

seals out harmful bacteria for safer storage.

NANO Silver Technology*

uses the power of microscopic silver particles to inhibit bacteria growth, keeping your food fresher, for longer and your refrigerator cleaner.

*Applicable only to glass door models.

BIG
APPLIANCES

Cosmic Advantages:

Toughened Glass
Durable shelves support heavy loads, ensuring safety and longevity.

Deep Door Shelf
Maximizes storage space and provides ample room for large bottles and containers.

Stabilizer-Free Operation
Ensures consistent performance without the need for an external stabilizer, even during voltage fluctuations.
(Operates normally within a wide voltage range of 160V to 260V.)

Large Crisper Cover
Spacious design accommodates bulkier fruits and vegetables, maintaining their freshness and vitality for longer periods.

Economical Choice
Low electricity consumption for cost-effective operation.
